

# THE LYNCH QUILTS PROJECT RESOURCES

These resources are designed to offer you additional opportunities to engage with and explore the history and ramifications of racism and the history of lynching. Most important, many of the resources give you the opportunity to connect with like minded individuals and resources for community building, dialogue and anti-racism efforts. Explore this topic and these organizations at your own discretion. I make no claims nor vouch for any particular organization. These are simply a few of the resources I have encountered over the years in my own journey.
